

Parsa Niavand

Technical Support Specialist

Yerevan, Armenia • vvsparsa@gmail.com • +374 33 877 067
parsany.com • github.com/parsany • linkedin.com/in/parsany

PROFILE

Customer-facing software professional with 3+ years building and supporting production software, combined with content-writing experience. Skilled at troubleshooting technical issues, replicating and documenting bugs, and explaining complex concepts in plain language for non-technical users. Quick learner, calm under pressure, and comfortable working across tickets, live systems, and cross-functional teams.

KEY STRENGTHS

- **Technical Troubleshooting:** Direct experience diagnosing and resolving issues on live production systems.
- **Bug Documentation:** Comfortable replicating, documenting, and tracking issues through tools like Trello, ClickUp, and Notion.
- **Plain-Language Communication:** Skilled at explaining technical concepts clearly to non-technical users, in both English and Persian.
- **Content & Documentation:** Experience writing structured, clear content – directly transferable to knowledge-base articles and support docs.
- **Quick Learner:** Comfortable picking up new tools, ticketing systems, and unfamiliar codebases fast.

EXPERIENCE

Fullstack Engineer (Client-Facing)

Full-time, On-site

Codesheen

Oct 2023 – Jul 2026

- Communicated directly with clients across 8+ concurrent projects, gathering requirements and providing clear updates.
- Diagnosed and resolved issues on live production systems, translating technical problems into plain-language explanations for end users.
- Walked clients through bug reports and new feature rollouts, ensuring quick resolution and smooth adoption.
- Documented bugs and workflows using Trello, ClickUp, and Notion, bridging technical and non-technical teams.

Selected Project Deliverables:

Goldenbat GPS Tracking

Live fleet-tracking platform – provided ongoing phone and ticket-based support after launch.
