# PARSA NIAVAND

**Frontend Engineer** | **Software Engineer**

React / Next.js / TypeScript / Tailwind CSS / Node.js

vvsparsa@gmail.com · linkedin.com/in/parsany · github.com/parsany · parsany.com · +374 33 877 067

Frontend Engineer with 3 years of production experience specializing in React, Next.js, and TypeScript. Owns frontend architecture across multiple concurrent production applications, with deep expertise in Core Web Vitals, responsive UI systems, and interactive dashboards.

## PROFESSIONAL EXPERIENCE

**Frontend Engineer** — Codesheen
*Full-time, On-site* — Oct 2023 – Jul 2026

- Spearheaded frontend architecture across **8+ concurrent web applications** utilizing Agile methodologies in a 7-engineer team over a near 3-year tenure.
- Built responsive, accessible user interfaces using Next.js, React, and TypeScript in Turborepo monorepos, **reducing build times by 30%**.
- Standardized UI component libraries with Tailwind CSS and shadcn/ui, achieving **90+ Lighthouse scores across production interfaces** via Core Web Vitals and SEO optimization.
- Enforced end-to-end type safety between client components and APIs using tRPC and Zod, **reducing runtime errors and improving API reliability**.
- Participated in code reviews with a 5-developer core team, maintaining **code quality and consistency** across concurrent projects.

Selected Project Deliverables:

**Goldenbat GPS Tracking** Sep 2024 – Jan 2025 — Live Demo | Mobile Demo | Dashboard

Designed and built the Next.js mobile PWA and landing experience for a real-time GPS fleet platform ingesting **10,000+ coordinate updates per minute** with **sub-second latency**. Engineered interactive Mapbox GL dashboard interfaces for live vehicle tracking, dynamic geofencing, and real-time alert notifications.

**Battery ESP/MSK E-Commerce** Dec 2025 – June 2026 — Live Demo | Dashboard

Architected the Next.js/React frontend for two production bilingual e-commerce sites and an internal admin panel — including accessible components with ARIA states, keyboard-navigable modals, and RTL-aware layouts. Converted Figma designs into pixel-perfect, responsive UI, engineered serial-number verification flows, and optimized i18n bundles for **sub-second page loads**.

**Alzahra Gold Wholesaler B2B Platform** Mar 2024 – Apr 2024 — Live Demo | Desc

Engineered the Next.js frontend and buyer dashboard interfaces for a wholesale gold trading portal over Django REST APIs, optimizing asset delivery and rendering pipelines to achieve a desktop **Lighthouse score of 99**.

**Taxiland Ride-Sharing Platform** May 2024 – Aug 2024 — Archived MVP

Developed cross-platform web and mobile interfaces for passenger booking and driver navigation. Built reactive dispatch UI dashboards enabling real-time driver tracking, automated assignment overlays, and support ticket workflows.

## SELECTED SOLO PROJECTS

**Atrafian Chat & Social Ecosystem** Jan 2026 – Mar 2026 — Landing Demo | Dashboard | App Demo

Developed a responsive cross-platform web and mobile (Capacitor.js) social platform featuring interactive radar user discovery, stories UI, client-side NSFW media pre-filtering, and wallet checkout flows.

- Built a real-time messaging frontend with Socket.io, handling optimistic UI updates, virtualized chat lists, and seamless connection recovery.
- Optimized client-side media rendering and image caching, maintaining **smooth 60fps animations** across mobile devices.

**K2N Solutions Inc. Website** Jul 2026 – Aug 2026 — k2ninc.com

Designed and built a static Next.js/React website replacing a legacy WordPress site for an engineering firm, reducing page load times to **sub-second** and implementing an elegant, responsive UI layout.

## SKILLS

**Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3.

**Frontend Core:** React, Next.js, Tailwind CSS, shadcn/ui, Responsive UI/UX, Accessibility (WCAG, ARIA).

**State & Data:** TanStack Query, Zustand, Redux, tRPC, Zod, React Hook Form.

**Motion & Perf:** Framer Motion, Core Web Vitals, SEO, i18n, WebSockets.

**Tooling & Build:** Turborepo, Vite, pnpm, Git, Docker, CI/CD.

**Full-Stack Sync:** Node.js, NestJS, REST/GraphQL APIs, Playwright.

## EDUCATION

**B.S. in Computer Science** Graduated 2026 — Science and Research Branch (SRBIAU)
