PROFILE

Computer Science graduate with **3+ years of hands-on experience** deploying, monitoring, and maintaining multi-tier production environments. Proficient with Linux (Ubuntu/Debian) systems, Nginx reverse proxy configuration, Docker containerization, and relational database operations. Analytical troubleshooter experienced in system health monitoring, alert escalation, and operational reliability in Yerevan.

SKILLS & TECHNICAL PROFICIENCIES

Operating Systems & Infra: Linux (Ubuntu/Debian), Windows Server, System Administration, Multi-tier Architectures

Containers & Cloud: Docker, Containerization, AWS (S3, EC2), Bash Scripting, Python, CI/CD, Git

Web Servers & Networking: Nginx, Reverse Proxies, WebSockets, REST APIs, SSL/TLS, DNS, TCP/IP

Databases & Operations: PostgreSQL, Redis, SQL, Monitoring & Alerting, Log Analysis, Troubleshooting

PROFESSIONAL EXPERIENCE

Systems / Software Engineer (Operations & Infrastructure)

Full-time, On-site

Codesheen

Oct 2023 – Jul 2026

- Maintained smooth operation, performance monitoring, and uptime across production and staging environments for **8+ concurrent client projects**.
- Deployed web applications and microservices across multi-tier architectures utilizing Nginx web servers and Docker containerization.
- Executed routine software updates, system patches, and database maintenance to ensure platform stability and security.
- Monitored system health and performance indicators; promptly diagnosed root causes of alerts and escalated complex issues to senior engineers.
- Authored technical documentation, standard operating procedures (SOPs), and deployment guides to streamline team onboarding.
- Utilized Bash scripting and Git workflows to automate deployment routines and maintain clean configuration management across servers.
- Demonstrated high adaptability and operational discipline while supporting live production launches and on-call rotations.

Selected Infrastructure & Production Deliverables:

Goldenbat GPS Tracking Platform

[\[Live Demo\]](#) [\[Dashboard\]](#)

Maintained production server environment ingesting **10,000+ telemetry coordinates/min**; configured Nginx request routing, WebSocket feeds, and monitored system latency.

Atrafian Social Ecosystem

[\[atrafian.ir\]](https://atrafian.ir)

Managed Docker containerized services (NestJS, Redis, PostgreSQL, MinIO); optimized database query efficiency and monitored socket server health for high-traffic rooms.

Bilingual E-Commerce & B2B Platforms

[\[Live Demo\]](#) [\[B2B Demo\]](#)

Configured multi-tier deployments, SSL certificates, Nginx caching, and PostgreSQL database updates across production and staging environments.

EDUCATION

B.S. in Computer Science Graduated 2026

Science and Research Branch (SRBIAU)

LANGUAGES & AVAILABILITY

English: Upper-Intermediate / Fluent (Spoken & Written) | **Persian:** Native

Shift Flexibility: Fully available and flexible to work in rotational shifts as required by operational schedules.
